

Advertising Display 15.6"

The compact all-in-one 15.6" Android Advertising Display is a great solution for brands and retailers to advertise their digital marketing message in a commercial location. Operating on an Android operating system and powered by Pulse technology, this compact screen includes all the features of a giant Android tablet, without the touch screen capability. Attach to any standard TV/monitor Vesa bracket - and just turn on the power. An integrated media player, a host of built-in signage and connectivity options (embedded WiFi, LAN and 3G/4G USB-dongle), enables remote update of digital signage content. With high viewing angles and small footprint, it is well suited as a free standing floor or wall display, in portrait and landscape format

*3G/4G/GPS Optional, Pending carrier compatibility/availability.
